## Fees and Expenses

If you have an account in the Plan, it may be subject to asset-based fees, Plan administrative fees and expenses, and/or individual fees and expenses.

### Asset-Based Fees

Asset-based fees reflect an investment option’s total annual operating expenses and include management and other fees. They are often the largest component of retirement plan costs and are paid by all shareholders of the investment option. Typically, asset-based fees are reflected as a percentage of assets invested in the option and often are referred to as an “expense ratio.” You may multiply the expense ratio by your balance in the investment option to estimate the annual expenses associated with your holdings.

Asset-based fees are deducted from an investment option’s assets, thereby reducing its investment return. Fee levels can vary widely among investment options, depending in part on the type of investment option, its management (including whether it is active or passive), and the risks and complexities of the option’s strategy. In some instances, a Plan’s administrative services may be paid for through offsets and/or payments associated with a Plan’s investment options.

### Plan Administrative Fees and Expenses

Plan administrative fees may include recordkeeping, legal, accounting, trustee, and other administrative fees and expenses associated with maintaining the Plan. Some Plans may deduct these fees and expenses from individual accounts in the Plan.

Based on the information and direction Fidelity had at the time this Notice was prepared, the Plan administrative fees listed below may be deducted from accounts in the Plan. The Plan's administrative services may also be paid for through offsets and/or payments associated with one or more of the Plan's investment options. As you review this information, please keep in mind that fees are subject to change and that certain Plan administrative fees may not be deducted from accounts in certain circumstances.

| Type of Plan Administrative Fee | Amount                               |
|---------------------------------|--------------------------------------|
| Recordkeeping Fee               | \$65.00 per year, deducted quarterly |

**If any Plan administrative fees are deducted directly from your account, they will be reflected on your Plan account statement.**

### Individual Fees and Expenses

Individual fees and expenses include those associated with a service or transaction you may select, or an investment option you hold in your account. In some instances, they may be deducted from the accounts of those individuals who use the service or engage in the transaction.

If you have an account in the Plan, and you select or execute the following service(s) or transaction(s), the fee(s) outlined below may be deducted from your account based on the information and direction Fidelity had on file at the time this Notice was prepared. As you review this information, please keep in mind that fees are subject to change and that certain individual fees may not be deducted in some circumstances.

| Type of Individual Fee                        | Amount                                                                                                                                                                 |

This section provides information about the investment options in the Plan and reflects data recordkept as of 08/07/2026, except for performance data, which is as of December 31 of the prior year. To help you better understand the Plan's investment options, information is available at <https://nb.fidelity.com/public/nb/default/home?option=ngDCInqFundPerformance>, including a glossary of investment terms available online at <https://nb.fidelity.com/public/nb/default/home?option=dcPlandetails>. To request additional investment-related information, or a paper copy of certain information available online, free of charge, contact a Fidelity representative at Fidelity Investments, PO Box 770003, Cincinnati, OH 45277-0065 or call 800-835-5097.

As you review this information, you may want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals. Keep in mind that the cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings, but is only one of many factors to consider when you decide to invest in an option. Visit the Department of Labor's website at <https://www.dol.gov/agencies/ebsa/about-ebsa/our-activities/resource-center/publications/understanding-your-retirement-plan-fees> for an example of the long-term effect of fees and expenses.

The chart below lists the Plan's investment options that do not have a fixed or stated rate of return, and underneath each investment option is an applicable benchmark for that option. A benchmark is a standard against which the performance of a security, mutual fund, or investment manager can be measured. This Notice requires that a broad-based market index be listed on the chart for each investment option. Additional benchmarks for an investment option may be available online at <https://nb.fidelity.com/public/nb/default/home?option=ngDCInqFundPerformance> along with benchmark index definitions. Please note that the benchmark used by the Plan sponsor to measure and monitor performance may be different than the benchmark displayed in the chart. Keep in mind that you cannot invest in a benchmark index.

**Understanding investment performance:** As you review the following information, please remember that the performance data stated represents past performance, which does not guarantee future results. Investment return and principal value of an investment will fluctuate; therefore, you may have a gain or loss when you sell your shares. Current performance may be higher or lower than the performance stated and is available at <https://nb.fidelity.com/public/nb/default/home?option=ngDCInqFundPerformance> or your Plan's benefits website.

◇ Some outside investment and vendor information may not be available to Fidelity. When "N/A" does not appear and no shareholder fee is shown it is due to the fact that our recordkeeping system does not have a shareholder fee(s) on file. Nevertheless, there may be shareholder fees associated with the investment option. More information may be found in the prospectus and/or other investment-related information, as well as by contacting the outside investment manager or vendor directly.

§ Excessive trading in this investment option and/or other investment options subject to such restrictions will result in the limitation or prohibition of additional purchases (other than contributions and loan repayments) for 85 calendar days; additional excessive trading will result in a limitation of one exchange per day per calendar quarter for a 12-month period.

‡ Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to "compete" with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

^ The current yield reflects the current earnings of the fund, while the total return refers to a specific past holding period. The 7-Day Yield is the average income return over the previous seven days, assuming the rate stays the same for one year. It is the Fund's total income net of expenses, divided by the total number of outstanding shares and includes any applicable waiver or reimbursement.

^^ The 7-Day Yield Without Reductions is the yield without applicable waivers or reimbursements. Absent such waivers or reimbursements, the returns would have been lower. Voluntary waivers and/or reimbursements may be discontinued any time.

Expense Ratio

Expense ratio is a measure of what it costs to operate an investment, expressed as a percentage of its assets, as a dollar amount, or in basis points. These are costs the investor pays through a reduction in the investment's rate of return, and are required to be disclosed on the chart as a gross amount. For a mutual fund, the gross expense ratio is the total annual fund or class operating expenses (before waivers or reimbursements) paid by the fund. Where the investment option is not a mutual fund, the figure displayed in the expense ratio field is intended to reflect similar information, but may have been calculated using methodologies that differ from those used for mutual funds. Mutual fund data has been drawn from the most recent prospectus and has been provided by FMR LLC for Fidelity mutual funds and Morningstar, LLC for non-Fidelity mutual funds. For non-mutual fund investment options, the information has been provided by Morningstar, LLC, the product's investment manager or trustee, the plan sponsor or other third party. In certain instances, there may be fee waivers and/or expense reimbursements which could result in a temporary reduction to the gross expense ratios listed in the chart. More information is available online at <https://nb.fidelity.com/public/nb/default/home?option=ngDCInqFundPerformance> or your Plan's benefit website.

#Non-Fidelity Government Mutual Fund Money Market: *You could lose money by investing in a money market fund.
